Short description:

SW-TAL-001, is a hybrid , more relaxing than energizing. Consumers who have smoked this strain report feeling calm, and sedated, but still mentally alert. The flavor profile is extra fruity with hints of sour citrus. This genetic flower provides a smooth smoke and a lingering sweet and spicy aroma. Medical marijuana patients say they smoke this strain when experiencing mild pain.

### Short description:

SW-TAL-004 is an indica-dominant cannabis strain bred from OG Kush and Tangie. Her average THC concentration is very high, reaching between 24–27% depending on the phenotype and how she was grown. This genetic develops thick and super resinous flowers, typical of a high-quality indica. Her aroma is fruit-dominated, and her effects combine a fast mental euphoria and long-lasting, deep physical sedation.
